PROFESSIONAL SUMMARY

Final-year Computer Science engineering student with growing experience in designing intelligent software solutions, automating workflows, and working with data-centric systems. Interested in artificial intelligence, cloud technologies, and scalable application development with practical exposure to Python-based engineering and analytical tools.

EDUCATION

Bachelor of Engineering – Computer Science | Brindavan College of Engineering, Bengaluru |
CGPA: 7.44 | 2022–2026

TECHNICAL SKILLS

Artificial Intelligence & Language Models, Prompt Design, OpenAI API, Retrieval-Augmented Workflows, Machine Learning, Deep Learning, MLflow, DagsHub, Data Processing with Apache Airflow and PySpark, SQL, MongoDB, SAP BTP, SAP HANA Cloud, SAP Analytics Cloud, Git, GitHub, VS Code, Jupyter, Power BI, Python, C, JavaScript (React, Node.js).

INTERNSHIP EXPERIENCE

SAP Edunet Foundation Internship Program | Applied AI & Data Engineering Intern

- Assisted in developing automated data pipelines to simplify information processing and improve workflow consistency.
- Participated in building visual reports for performance tracking and operational understanding through dashboard tools.
- Worked with Python and SAP cloud platforms to improve data accessibility and streamline integration activities.
- Supported analytics-focused cloud solutions while gaining practical exposure to enterprise technologies and deployment practices.

PROJECTS

Hwellbeing AI – AI Based Healthcare System | *SAP BTP, Python, FastAPI, Docker, ML*

Developed an AI-based healthcare platform that analyzes user health symptoms and provides medical suggestions, tablet recommendations, and nearby doctor/clinic guidance for severe cases using Machine Learning models and FastAPI APIs.

Smart Presence – Smart Attendance & Academic Tracking Solution

Developed a digital attendance platform that combines facial identification and location-based confirmation to simplify record management. Included reporting features to review attendance trends and improve institutional monitoring.

CERTIFICATIONS

SAP Learning – ABAP Programming

SAP Learning – S/4HANA Extensibility

SAP Learning – ABAP Cloud

IBM – AI Fundamentals
